

REMARKS

The above amendatory action is taken more clearly to distinguish over the prior art and more completely to define the subject matter which Applicant regards as the claimed invention. Support for the recitations inserted into claims 45 and 66, and for the recitations in new claims 74 and 76, appear in the application as filed in, for example, Fig. 4 of the drawings.

An early and favorable reconsideration of the application as amended is again respectfully requested.

Respectfully submitted,
